

## Case Study

---

# Best Practice Process Implementation for Petro Chemical Manufacturing Major

The client is one of the largest Petrochemical Manufacturers in the Saudi Region.

## Challenges

The client was looking for a solution to optimize its plant operations and reduce expenditure. The increased cost of operations was eroding the profit margin of the organization. **The main objectives set for us by the client were:**

- Integrating the landscape of acquired entity's legacy system with the existing one.
- Synchronizing the operations from Cristal and Metallurgy SAP landscape with the end customer's operations.
- Establishing and maintaining plant operations in SAP for AMIC Corporate and ATTM plant.

## LTI Solution

**LTI provided cost and operationally effective solution by implementation of SAP. As part of our solution:**

- A total of 12 modules were implemented in SAP ECC 6.0 EHP6.
- Solution consulting and onsite-offshore support to EBS team and business team of the client was provided to run plant operations.
- Planned CRP-based rollout for multiple locations.
- Developed business KPI-driven solution.
- Implemented best practice process for Metallurgy Plant setup phase and operation phase.

## Business Benefits

- Alignment of project timelines with business needs, ensuring system availability.
- Effectively connected manufacturing process, sales / customer relationship and backend office solutions.
- Optimized the IT expenses and maximized ROI in line with the client's IT strategy.

Let's Solve

LTI (NSE: LTI) is a global technology consulting and digital solutions company helping more than 435 clients succeed in a converging world.
