

Let's Solve

A Larsen & Toubro
Group Company

Case Study

Serverless Data & Analytics Platform on Snowflake in AWS Cloud For Global Electric Company

Client

The client is a Fortune 1000 public utility company based in the US. It is primarily into the function of energy distribution to customers.

Challenges

- ☑ Vast amount of siloed data across different business functions, which required lots of time to process and cleanse it to meet the business user's needs.
- ☑ Poor data insights and unavailability of right data at right time for decision making.
- ☑ The turnaround time to load historical data to datawarehouse was several hours.
- ☑ Overall, the data platform was not dynamically scalable to handle the concurrent data load and deliver information as per business expectations.
- ☑ Distribution of IT costs to all concerned departments

LTI Solution

- ☑ Develop the end-state architecture and automated dataflow to ingest data from Oracle to s3 bucket onto snowflake for data discovery and insight leveraging LTI Canvas polarsled framework.
- ☑ Use TableShift (LTI accelerators) to reduce migration time from over weeks to few days from Oracle tables and create equivalent in Snowflake.
- ☑ Leverage Snowflake as the core data warehouse platform to fully leverage pay-as-you-go pricing, auto scaling-up and across & data sharing with customers.
- ☑ Configure Serverless component snow pipe to read S3 events to ingest data onto stage table.

Business Benefits

Cost-effective

and scalable platform providing near real-time visibility to serve customer requests

5TB Volume

of data migrated over 8 weeks with >5 FTE effort

8-10 Business apps

migration in progress

Enhanced Performance

2x as compared to RedShift

Reduce IT spend

around 30 to 50% by providing better and efficient data platform

LTI (NSE: LTI) is a global technology consulting and digital solutions Company helping more than 400 clients succeed in a converging world. With operations in 31 countries, we go the extra mile for our clients and accelerate their digital transformation with LTI's Mosaic platform enabling their mobile, social, analytics, IoT and cloud journeys. Founded in 1997 as a subsidiary of Larsen & Toubro Limited, our unique heritage gives us unrivalled real-world expertise to solve the most complex challenges of enterprises across all industries.
