

Let's Solve

Case Study

Business Transformation
Leveraging SAP S/4HANA for
Leading Amino Acid & Food
Ingredients Manufacturer

A Larsen & Toubro
Group Company

Client

The client is a global leader in the research, development, manufacturing and sale of amino-acid-based products for the pharmaceutical, nutraceutical, sports nutrition, health and beauty industries, as well as food ingredients and consumer food products. Headquartered in Japan, the company has setup major operations in the United States, with production facilities in North Carolina and Iowa, and sales offices in Illinois and Oregon. The client is using SAP ERP and SAP BW systems for running their business.

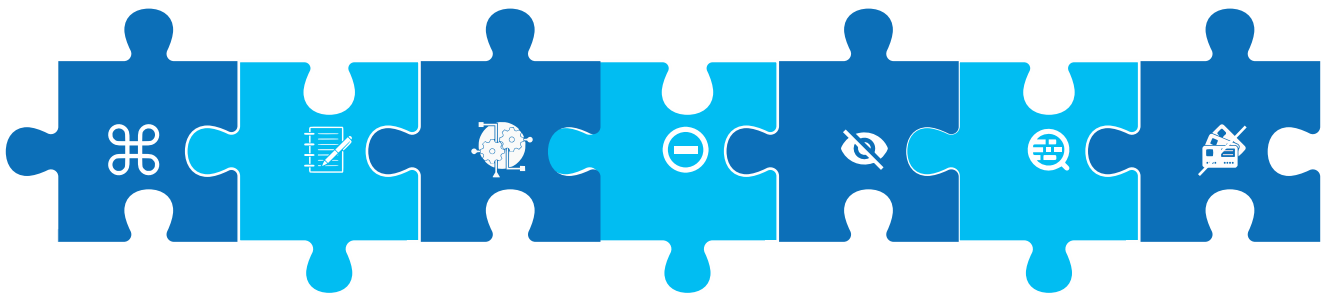

Challenges

Lengthy, time-consuming financial reconciliation efforts between modules and sub ledgers.

Need to maintain multiple master data for same objective.

Lack of visibility into procurement process and inventory management, resulting into lost saving opportunities.

No mechanism to track customer credit limit approvals.

Scattered Information and lack of granularity in reporting which necessitates the use of multiple reports and excel work.

Lack of integrated planning, budgeting and forecasting functionalities.

Disintegrated sales management with limited insights in logistics and unorganized order management

Challenges - Performance Bottlenecks

Slowness in several t-codes

3+hours for ECC Backup

28+ Hours for Client Copy

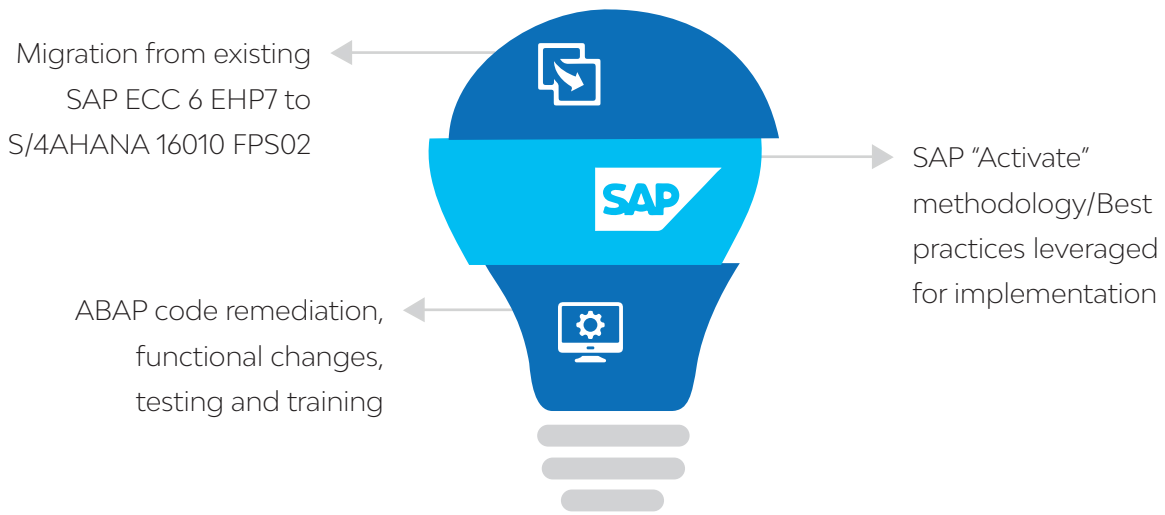

10+ minute's runtime for many logistics reports

2.5 hours to run actual costing process during month end

Frequent table locks for heavily used logistics process

LTI Solution

Business Benefits Delivered

95% reduction in SAP Material ledger closing time

71% reduction in Database size after migration

Enhanced User Experience using Fiori

Simplified Process Structure aligned to standard SAP

Scalable reporting structure
