

Case Study

Automation of Manual Supply Invoicing Process for US-based Energy Major

Client

The client is a US-based multinational energy corporation, with headquarters located in Texas.

Challenge

The client was in dire need to reduce the high errors and employee count in the processing of supply invoicing operations.

LTIMindtree Solution

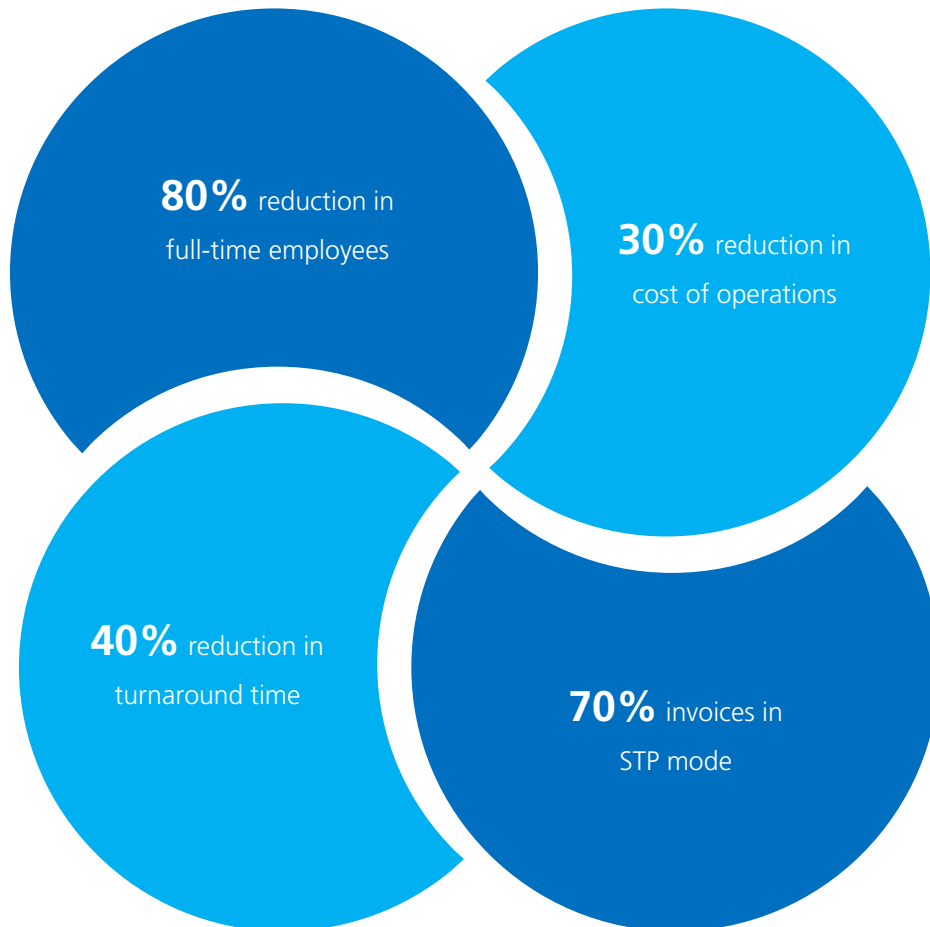

LTIMindtree engaged with the client and did an end-to-end due diligence to understand their current processes. After a thorough analysis of the operations, a pure play RPA implementation was proposed as the solution for six use cases under these processes

The BOTs were designed and implemented to:

- Perform extraction and pdf file operations for these processes
- Perform data transactions in SAP application
- Send out confirmatory mails on completion of certain operations within these processes

Business Benefits

About LTIMindtree

LTIMindtree is a global technology consulting and digital solutions company that enables enterprises across industries to reimagine business models, accelerate innovation, and maximize growth by harnessing digital technologies. As a digital transformation partner to more than 700 clients, LTIMindtree brings extensive domain and technology expertise to help drive superior competitive differentiation, customer experiences, and business outcomes in a converging world.
