

Digital Matters

It is so exciting to be able to share client success stories! We recently partnered with a Swedish financial services company, Hoist Finance AB to manage its IT Operations. We start this edition with a story of Hoist Finance and LTI delivering an industry-defying migration of all infrastructure to cloud in less than six months. Please don't miss this video.

Also, I'm happy to share that LTI has been recognized as an "Innovator" by Avasant, a leading management consulting firm, in its IoT Services RadarView™ 2021 Report. The edition also highlights the launch of Industry 4.0 thought leadership section, which talks about global manufacturing transformation and narrates how LTI's 'Connected X as a Service' framework enables a swift and seamless adoption of Industry 4.0 to realize business benefits.
