![LTIMindtree]

Transform Your IT Operations with Full Stack Digital Operations

LTIMindtree enables enterprises to "Thrive" in a dynamic environment, to drive resilience, efficiencies, Innovation and Business Growth.

Benefits

Growth

- Business-infused IT Operations, primed for expansion
- 20~25% OpEx Reduction

Innovation & change

- 1.5 times User Experience Index Improvement; AI-led Operations

Efficiency

- 40~50% MTTR & FCR improvement

Resiliency

- 30-40% Faster Technology Upgrade, Technical debt reduction

Why LTIMindtree

FinOps best practices to enable cost reduction

SRE by design to drive resiliency for secured and resilient systems at scale

Service level objectives centric operations and digital KPIs

End-to-end contextualized visibility across the service value chain

Unified ITOPS for applications, data, and infrastructure using an AI/ML-based approach

Automate the first approach to drive continuous optimization

💡 Solution Details

Platform for growth

Purposeful Transformation Strategy for "Growth" with measurable outcomes.

Platform for resiliency

SRE by design for secured and resilient systems helping clients to move towards zero downtime.

Platform for innovation and change

Inspire and enable innovation with prioritization of people and culture in a workplace of the future. Adopt agile methodologies for Speed, Automation & User experience.

Platform for efficiency

Proactive, predictive, and Unified IT Operations for Enterprise IT Services using an AI/ML-based approach. Build an intelligent and modern data ecosystem to support customer outcomes in a cost-efficient manner.

Key Performance Indicators

User experience index	Time to manage new workloads	Reskilling	Ops TCO
Team Productivity	Automation index	FinOps cost savings	MTTR & MTBF
