

Smart-Watch Your Cloud through Full-Stack Observability

Infinity Watch, a unified observability solution uses telemetry data to capacitate full-stack visibility across the cloud lifecycle. It integrates with a suite of monitoring tools and provides cognitive insights on business impact and enterprise health, derives metrics correlation, auto diagnoses anomalies, and recommends resolutions.

Benefits

Enhanced business resiliency

30% reduction in false alerts

25% cost savings

Value-stream insights into business impact

Improved reliability and operational efficiency

60% faster resolution with AI-driven RCA and diagnostics

Why LTIMindtree

Deep domain expertise helping build impactful Business KPIs and business process mapping across multiple industries

Maturity assessment framework across business, technical, operational, compliance, and security dimensions

Actionable recommendations for continuous planning, sizing, and optimization of the enterprise ecosystem

Single pane full stack observability across business and technology

Solution Blocks

Full Stack Discovery

Telemetry of monitoring data from Application & Infrastructure landscape

- Connect-ability with suite of monitoring tools
- Data discovery aligned to standardized and structured open telemetry formats
- Central Knowledge Base for logs, events, traces, and metrics

Full Stack Insights

Single-pane value stream for Business & Technology

- An Observability Engine with cognitive capabilities like pattern detection, prediction & forecasting across cloud, business, applications, infrastructure and network
- Ability to correlate metrics, traces, logs, and events to business outcomes with real time analysis, RCA and visualization

Full Stack Actions

Recommendations & Automated Workflows across stack

- Recommendations on Observability Driven Development (ODD) throughout the SDLC
- Actionable recommendations to design and optimize business ecosystem strategies
- Continuous improvement through AI-led insights and automation

Infinity Watch helps identify and ascertain single pane value stream insights across business, applications, technology, infra and network. The actionable recommendations enable designing and optimizing apt business ecosystem strategies.

LTIMindtree [NSE: LTIMindtree] is a global technology consulting and digital solutions company that enables enterprises across industries to reimagine business models, accelerate innovation, and maximize growth by harnessing digital technologies. As a digital transformation partner to more than 700 clients, LTIMindtree brings extensive domain and technology expertise to help drive superior competitive differentiation, customer experiences, and business outcomes in a converging world. Powered by more than 85,000 talented and entrepreneurial professionals across 33 countries, LTIMindtree — a Larsen & Toubro Group company — combines the industry-acclaimed strengths of erstwhile L&T Infotech and Mindtree in solving the most complex business challenges and delivering transformation at scale.
