Simplifying Enterprise Cloud Migration

LTIMindtree's new offering "Cloud Boost" combines Oracle's Cloud Lift Services with our expertise in cloud migration

Introduction

Cloud Boost is a new offering that leverages the power of Oracle's Cloud and LTIMindtree's expertise in cloud migration. Cloud Boost simplifies enterprise cloud migration with end-to-end ownership, flexible timelines, and post-migration support for successful and efficient cloud adoption. It enables fixed costs and predictable processes, ensuring timely and budget-friendly service delivery, improving customer experience, and driving repeat business.

Business Problem

Many organizations are migrating their operations to the cloud for various reasons, such as scalability, cost savings, and flexibility. However, this complex process requires significant resources, be it migration or upgradation of existing applications to the latest cloud version without disrupting operations. Organizations that are using legacy systems for a long time often find it challenging to migrate their applications and data to the cloud. There is a need for a streamlined process that migrates the systems and provides a user-friendly interface through tools that automate various migration tasks, thus ensuring the migration process is faster, more efficient, saves time, and is flexible.

Ideal Situation for Next-Gen Oracle Cloud Services

- Aligning the stakeholders and decision-makers to realize the value of the cloud.
- Thorough timelines ensure successful outcomes.
- Competent resources expert on Oracle cloud
- Seamless integration of the new and Existing cloud/s
- Oracle Cloud adoption offers proven security and low risk.

Our Solution

Assessment Pack

The assessment Pack provides a detailed analysis of an organization's on-premises infrastructure and applications to identify potential migration challenges and opportunities.

Landing Zone Build

The Landing Zone Build component of Oracle Cloud provides a preconfigured cloud environment that serves as a foundation for the migration process.

Infrastructure & Non-Oracle DB

This component helps organizations to migrate their non-Oracle databases and applications to the cloud.

Infrastructure & Oracle DB

This component focuses on migrating Oracle databases and applications to the cloud.

EBS Migration

Traditional Services offers a solution for migrating Oracle E-Business Suite (EBS) to the cloud.

Security & Identity

Oracle Cloud provides a comprehensive security solution that includes identity and access management, network security, and data encryption.

LTIMindtree 'Cloud Boost' Value Proposition

Testing

End-to-end ownership of migrating to OCI including holistic testing of the application to ensure business continuity and zero disruption post-migration.

Complete Coverage for the Cloud solution

Support for Non-Oracle solutions available on OCI marketplace e.g., Palo Alto, Forti Net firewall, RackWare.

Project Timeline

Flexible migration timeline to meet the business requirement.

Post Go-Live Support

Custom support model for managing the workload on OCI.

LTIMindtree's OCI Migration Capabilities

- 100% Coverage of IT Stack
- > 30% Reduction in AMS cost
- Zero Business Disruption
- 50+ Global Cases

Conclusion

LTIMindtree's Cloud Boost offers End-to-End ownership of migrating to OCI including holistic testing of applications to ensure business continuity and zero disruption post-migration. Some of the features include a flexible migration project timeline to meet the business requirements, complete coverage for Cloud solutions, and post Go-Live Support.
