Simplify your Finance Transformation Journey with **NaviFinEdge.AI**

NaviFinEdge.AI

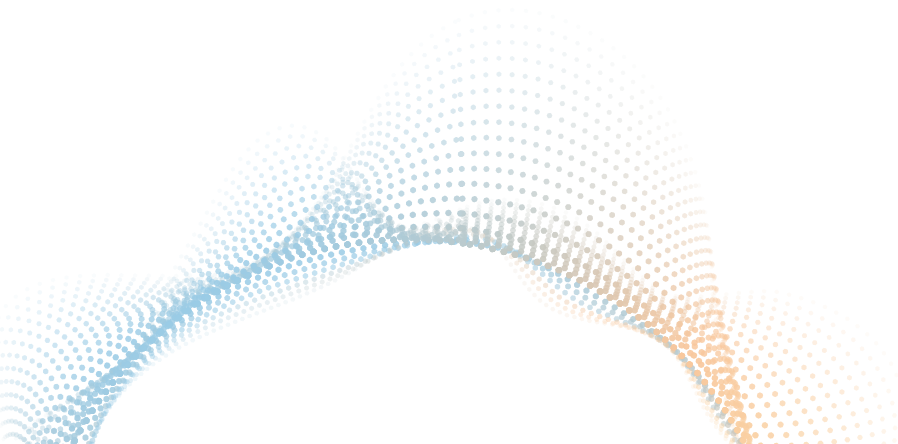

Embrace efficiency, reliability, and excellence with our end-to-end Finance Data Monitoring and Reconciliation solution.

Experience the pinnacle of finance management with our transformative solution. Empowering your finance team with autonomy, our system guarantees unmatched accuracy, agility, and visibility in day-to-day operations. Instilling trust in your data, we pave the way for faster closings and confident decision-making.

Streamline complex data flows with NaviFinEdge.AI, powered by Canvas.ai

In large organizations with intricate IT ecosystems, transactions are dispersed across multiple systems. Introducing a unified digital finance layer consolidates this data flow into a single cohesive platform, facilitating seamless transfer to reporting tools. However, ensuring data accuracy and reconciliation in real time poses a formidable challenge, impeding the realization of timely visibility and reporting objectives.

Unlock unparalleled efficiency with LTIM's revolutionary Gen AI platform, Canvas.ai. Seamlessly integrating autonomous reconciliation, our error dashboard is engineered to revolutionize monitoring, while our Gen AI chatbot swiftly helps resolve issues. Dive deeper with our insights and trend analysis tool, empowering you to anticipate challenges and automate solutions. Say goodbye to errors, embrace streamlined operations, and propel your business forward with cutting-edge automation from LTIM.

Resolve data reconciliation challenges with NaviFinEdge.AI

Organizations struggle during the financial closing and reporting process due to faulty data. CXOs do not get real-time insights for strategic decision making. There are challenges, such as:

Data accuracy and consistency

Ensuring data accuracy and consistency across systems is challenging due to potential discrepancies and errors during integration.

Data reconciliation

Reconciling data from various sources to ensure consistency and accuracy can be time-consuming and resource-intensive, especially in environments with large volumes of transactions.

High finance cost

Significant resources need to be allocated to data reconciliation efforts.

Reporting & decision-making bottlenecks

Manual month-end processes cause reporting delays, while gaps in real-time information lead to decision delays.

Data blind spots

Absence of real-time insights hinders proactive decision-making.

Forecasting hurdles

Inaccurate historical data availability hampers forecasting.

How it will benefit you

NaviFinEdge.AI, driven by Gen AI, seamlessly automates financial processes. It guarantees accurate and complete integration of finance data into a robust digital finance layer. The data is reconciled at all the reporting dimensions and is fit for purpose. It provides the following benefits.

99.99% accuracy

Resulting in Faster user adoption.

Up to 70% faster financial closing & insights to action

Access finance data instantly, enabling quicker financial closing and decision-making processes.

Up to 25% Cost savings

Helping clients reduce their running cost.

Up to 90% improved monitoring efficiency

Experience a boost in efficiency in monitoring, creating incident reports, and pinpointing the main cause of errors. Our solution automates these tasks, making them faster and more accurate. Plus, we use a cutting-edge Gen AI bot specially trained in finance to enhance CFIN operations.

Up to 50% reduced manual efforts

Easier reconciliation process by automating and simplifying tasks like finding errors, sorting them for incident reports, identifying the main causes, and managing problems efficiently with our solution.

Some key features of NaviFinEdge.AI

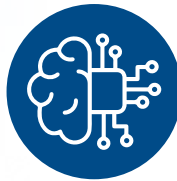

Optimize efficiency
Automate routine tasks, empowering resources to prioritize error reduction efforts.

Embedded guardrails and Responsible AI controls: Enhancing the trust in financial data.

Comprehensive error dashboard
Providing a holistic view for enhanced monitoring.

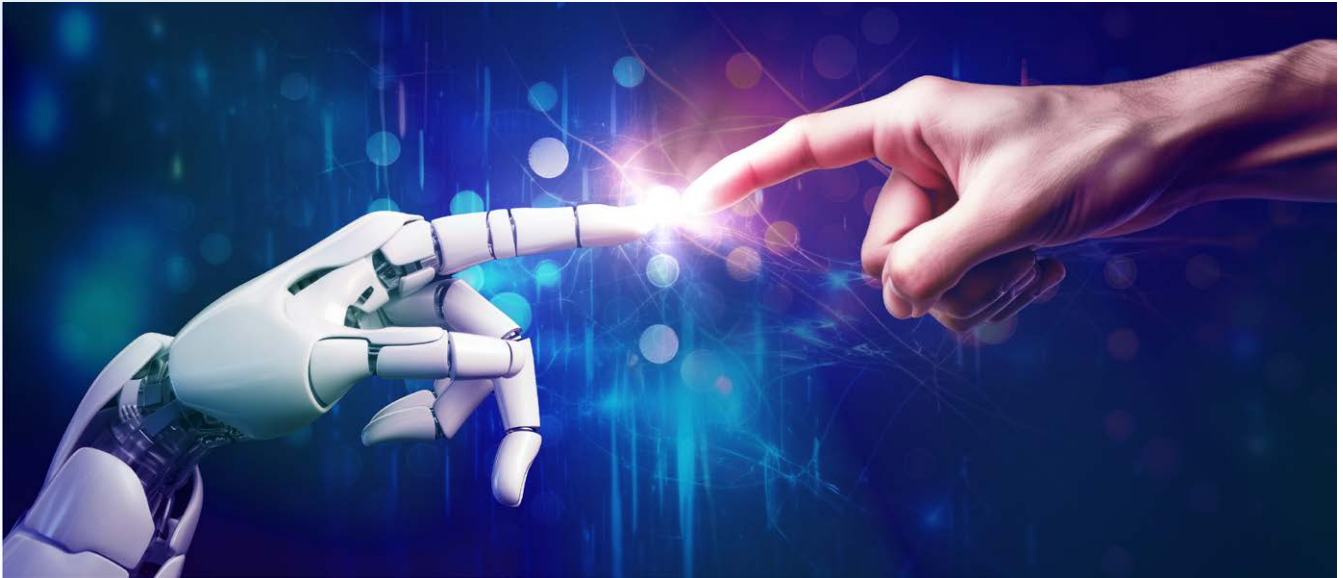

Intuitive solutions
Gen AI's intelligent analysis ensures swift error resolution.

Instantaneous reporting
Accurate, real-time insights available on demand.

Ready for the next steps?

Experience the transformative power of Gen AI and transform your finance operations with NaviFinEdge.AI for efficiency and accuracy.

Connect with us today to get to the **future, faster. Together!** with **NaviFinEdge.AI**

Powered by Canvas.ai - Leading the evolution of autonomous Intelligence in finance.

About LTIMindtree

LTIMindtree is a global technology consulting and digital solutions company that enables enterprises across industries to reimagine business models, accelerate innovation, and maximize growth by harnessing digital technologies. As a digital transformation partner to more than 700 clients, LTIMindtree brings extensive domain and technology expertise to help drive superior competitive differentiation, customer experiences, and business outcomes in a converging world. Powered by 82,000+ talented and entrepreneurial professionals across more than 30 countries, LTIMindtree — a Larsen & Toubro Group company — combines the industry-acclaimed strengths of erstwhile Larsen and Toubro Infotech and Mindtree in solving the most complex business challenges and delivering transformation at scale.
