

Applify.ai

Simplify and unleash the power of Appian using Gen AI

In today's dynamic digital landscape, businesses constantly seek efficient software solutions that can adapt to their evolving needs. Traditional development methods are often time consuming and require skilled developers.

Appian's low code development platform, enables users to create applications with minimal manual coding. Visual interfaces, drag-and-drop features, and pre-built components help overcome traditional development hurdles.

Accelerate your digital transformation with **Applify.ai** — the fusion of low code development and Generative AI for innovative software solutions in record time.

LTIMindtree's Applify.ai introduces a paradigm shift in low code development by the power of Generative AI to accelerate the digital transformation journey. This synergy enhances efficiency and fosters innovation, enabling businesses to maintain agility, drive digital transformation, and unlock new growth opportunities.

Key Features

Built on Appian low code platform, Applify.ai harnesses the power of Gen AI to automate various aspects of the application development, while low code enables rapid application development with minimal manual coding, visual interfaces, and pre-built components.

Rapid app building

Applify.ai facilitates quick app development, empowering teams to iterate on ideas swiftly and gather early feedback in the development cycle.

Delivering MVP faster with cost-effectiveness

Significant cost and effort reduction in MVP implementation.

Zero-touch experience

Automated creation of processes and record types directly from the requirements.

Increased productivity

With Gen AI-based code generation, low code drag-and-drop functionality and pre-built templates, developers can prioritize high-value tasks, accelerating the development process.

Faster understanding

Gen AI facilitates the conversion of business requirement documents into concise summaries, aiding both businesses and developers in understanding the requirements effectively.

Why LTIMindtree?

Dedicated low code integration practice using industry standards and best practices across tools.

Expertise in all workflows/Business process management (BPMs)/low code platforms, backed by domain experience across **120+ customers**.

LTIMindtree has strategic partnership with Appian to resolve queries and concerns quickly.

Fit-for-purpose tools and accelerators to expedite the transformation journey.

About LTIMindtree

LTIMindtree is a global technology consulting and digital solutions company that enables enterprises across industries to reimagine business models, accelerate innovation, and maximize growth by harnessing digital technologies. As a digital transformation partner to more than 700 clients, LTIMindtree brings extensive domain and technology expertise to help drive superior competitive differentiation, customer experiences, and business outcomes in a converging world. Powered by 81,000+ talented and entrepreneurial professionals across more than 30 countries, LTIMindtree — a Larsen & Toubro Group company — combines the industry-acclaimed strengths of erstwhile Larsen and Toubro Infotech and Mindtree in solving the most complex business challenges and delivering transformation at scale.
