HyperWeaver AI

Discover, Build, Govern: Gain insights, speed, and control with hyperautomation

HyperWeaver AI streamlines operations, boosts productivity, and helps organizations stay competitive. It is designed for faster discovery and automation, which reduces effort and costs, optimizes bot usage and spending on licenses, and drives significant ROI.

The challenge

In today's fast-paced digital world, businesses are challenged with managing an extensive ecosystem of bots. It often leads to overspending on licenses without a proportional reduction in effort or costs. Many organizations struggle to scale automation quickly and efficiently, failing to achieve the expected ROI. This underscores the need for a solution that enhances productivity, optimizes automation spend, and manages automated processes effectively.

HyperWeaver AI is designed to address these challenges. Its comprehensive suite offers a three-pronged approach: Discover, Build, and Govern. Let us delve into how each step helps you unlock the full potential of automation.

The solution

HyperWeaver Discover

- Integrate process and task mining tools for automation feasibility insights.
- Discover existing bots and reverse engineer processes for seamless migration.

- Build bot workflows automatically using insights after discovery.
- Crowdsource ideas from developers and business users for enhanced automation.

HyperWeaver Build

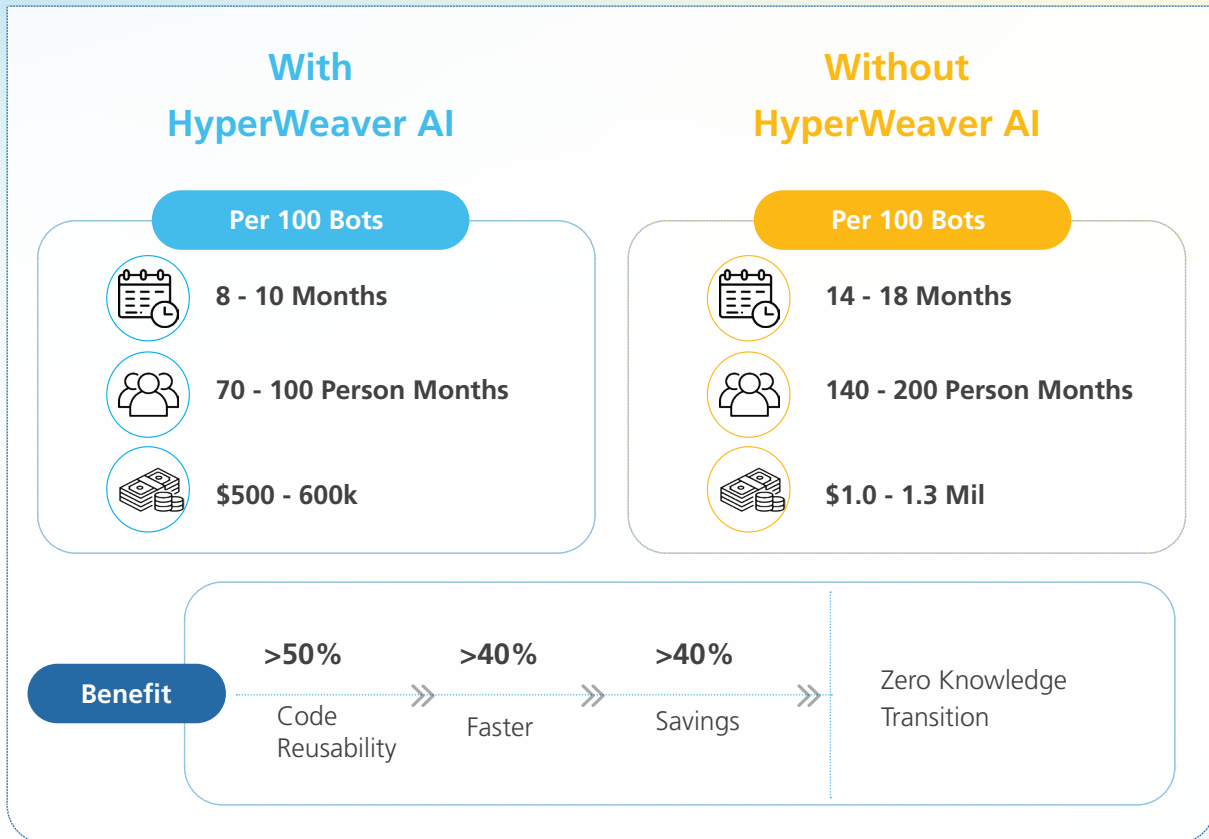

HyperWeaver Govern

- Monitor automation initiatives and optimize bot performance.
- Reduce license costs, ensure compliance, and maintain security across all processes.

- More than **50%** Code Reusability
- More than **60%** Faster
- **100%** Knowledge Retention
- Lower Spend by **40%**
- **E2E** Governance (Idea to Prod)

Why HyperWeaver AI?

What's unique?

- Understand workflows with bot insights
- Auto-build workflows from insights
- Crowdsourcing ideas to democratize
- Optimize bots and licenses with governance capabilities
- End-to-end data security

- A CPG giant reduced its license spend by approximately **40%** by re-platforming from BluePrism to Automation Anywhere.
- A European Commercial Vehicle Manufacturer reduced license spend by approximately **50%** by re-platforming from UiPath to Automation Anywhere and optimizing bot count.

How leading companies are using HyperWeaver AI to achieve breakthrough automation results

Get in touch

Are manual processes slowing you down? What if you could automate tasks seamlessly, optimize bot performance, and ensure compliance effortlessly?

Email us now to find out how you can achieve that

First 20 Customers get 75% discount on a 100,000 spend.

Know More about our services, capabilities, and offerings

LTIMindtree is a global technology consulting and digital solutions company that enables enterprises across industries to reimagine business models, accelerate innovation, and maximize growth by harnessing digital technologies. As a digital transformation partner to more than 700 clients, LTIMindtree brings extensive domain and technology expertise to help drive superior competitive differentiation, customer experiences, and business outcomes in a converging world. Powered by 82,000+ talented and entrepreneurial professionals across more than 30 countries, LTIMindtree — a Larsen & Toubro Group company — combines the industry-acclaimed strengths of erstwhile Larsen and Toubro Infotech and Mindtree in solving the most complex business challenges and delivering transformation at scale.
